

## Solutions for Sticky Situations

I have a handy-dandy label maker at my house, and it works well for the basic around-the-home labeling activities. But when I try and send my children to school with a labeled cup, lunchbox, or jacket, they usually come back rubbed off, torn, or missing entirely. These cute vinyl labels from Mabel's Labels, however solve that problem. From clothing-friendly 'Tag Mates' to iron-on labels to labels that stick on the inside of shoes, Mabel's has stylish solutions for camp-bound children or traveling families who want to find what belongs to who in a jiffy.
